79-3028

4 January 1979

MEMORANDUM FOR: Deputy to the DCI for Resource Management  
[redacted] SA/DCI

FROM: Director of Central Intelligence

SUBJECT: Annual Report for 1978

1. The DDCI and I had a discussion on Thursday about the draft Annual Report. I believe he has communicated with John separately on this. I told him that I basically liked the draft report, but I was concerned that it was a bit too long and that I had considerable reluctance to modify it substantially since I had approved the outline in fair detail.

2. Reflecting on this at home on Friday, I decided that it would do me some good to organize my own thoughts as to where we had come in 1978 and where we were likely to be going in 1979. Accordingly, I did an outline and sat down with a tape recorder and the results are attached. Please throw this into your pot of drafts as another consideration. When doing it, I would particularly like to have you get OLC to look carefully at the legislative part of it, [redacted] and Les Dirks at the past and future satellite material, John McMahon at the HUMINT, and any others you think could judge whether we have encapsulated the record and the trends in their areas.

3. Incidentally, I believe this draft could virtually be unclassified at least down to the details about the future.

4. I didn't have any of the drafts with me when I worked on this, nor did I have any list of what Boland's committee specifically requires of us in this report. On the other hand, if those specific requirements don't fit into the framework, they could be tacked on as appendices.

(please call [redacted] for pickup)

Dix,

25X1 I have shortened Part II of the DCI's  
Annual Report as he requested. Here is  
the Quality of Analysis and Policy Support  
section. [redacted]

25X1 I'd appreciate it if you could call me  
by Monday [redacted] with  
any comments/errors/distortions, etc. [redacted]

many thanks,

[redacted]

Please call [ ] for pickup

Dix,

Here is an advance copy of the draft section from the DCI's Annual Report on Major 1978 Accomplishments. The substantive part at the end I sought Mr. Bowie's advice on, and he told me through Alan that he favored this three category approach (negotiations, support to decisions, area background.) I will be circulating a full draft for NFIB principals comments in about two weeks, but it might make life easier if you in NFAC had an early look at this section as you did at the other three sections of particular interest to you.

Please phone any advance comments to me ([ ])

[ ] by COB 28 Dec and I'll include them in the NFIB draft; otherwise things can be caught in the full draft. One word of caution; the DCI is especially

Interested in this section and may add things, though. I doubt he will fuss much with the substantive part.

Howie,

I'd appreciate a quick scan of this draft section from the DCI's Annual Report on DIA Production, especially the first para re the contract affecting accuracies work. [REDACTED] next week if you see anything off.

Thanks,
